

Getting Started Guide

Mobile Magic Carpet

Overview

- The Magic Carpet is an innovative interactive floor projection system that enables users to engage with games and images simply by moving on or over the projected surface.
- The system encourages user interaction and teaches cause and effect in a fun and intuitive way.

Step by Step

Start Up

1. **Turn on the Projector** with the remote control unit or press the red/orange button on the projector itself.
2. **Turn on the PC** – the button can be found on the right hand side of the white box at the bottom of the unit.
3. Once the PC has booted, the magic carpet software should run automatically. (If it doesn't - use the keyboard to double click on the "Sensory Guru, Magic Carpet" shortcut on screen.
4. **Select the program** you want on the list on the left hand side of the magic carpet software window and then **click "Start"** on the right side of the window.
5. To choose a new program, **press "esc"** on the keyboard to return to the menu

Shut Down

1. **Shut down the PC** - go to the windows icon in the bottom right corner of the screen and then click on "Shut Down"
2. Once the PC has shut down, **turn off the Projector** either using the remote or click the blue power button on the projector itself.
