

iPad Apps

A guide to the apps on your Lifelites iPad:

| | | | |
|---|--|---|--|
|  | App store – search and download more free and paid for apps for your iPad. |  | Music – purchase and download music from Apple music. |
|  | Aumi – Music app that uses the camera to play musical notes by moving your head |  | Photobooth – weird and wonderful special effects using the camera. |
|  | Beamz – Music app to make music with the Beamz controller or just use the iPad to make music of all genres. |  | Photos – view photos and video footage you have taken with the iPad camera. |
|  | Big Bang Patterns – cause and effect patterns and music – use it with a switch. |  | Virtuoso Piano – Turn your iPad into a piano! |
|  | Big Bang Pictures – cause and effect pictures and music - use it with a switch |  | Snap and core first – powerful communication app with flexibility to adapt to variety of users and needs. |
|  | Blippar – use this to scan our equipment training posters to access training materials and support. |  | Puffin Browser – An internet browser that allows you to view flash based websites – great for HelpKidzlearn and homework sites. |
|  | Bloom – create sensory patterns and sounds by simply touching the screen. |  | Quiver – Augmented reality app – colour in pictures (print them at quivervision.com) and use the app to see them come alive! |
|  | Camera – take photos and create videos using the camera on the iPad. |  | Quiver Fashion – fashion version of Quiver – see your own designs and models come alive on the catwalk. |
|  | Cbeebies Playtime and Storytime – play games and read stories with all your favourite cbeebies characters |  | Quiver Masks - fully interactive and expressive augmented reality masks which mimic your face and match your artwork! |

| | | | |
|---|--|---|--|
|  | Echostring – turn your iPad into a harp to create beautiful music! |  | Sensory Room – cause and effect animated story – works well with a switch. |
|  | Fingerpaint with sounds – all the fun of finger painting without the mess! Sounds and music to go with each colour. |  | Settings – access to alter the setting on the iPad. |
|  | Garage Band – be a master musician on a whole range of instruments and even play along to your favourite tunes |  | Thumbjam – music app that provides easy access to play a whole range of instruments using the touchscreen |
|  | Gridplayer – communication grids to help communicate using symbols and pictures. Works with Grid3 on the PC if you have it. |  | Videos – Search, download and purchase videos, films and TV programmes. |
|  | iMovie – edit video footage to create your own films and trailers |  | Awesome Xylophone – turn the iPad into a Xylophone! |
|  | Jungle Adventure. An easy to play touch and single switch accessible game. |  | Little Penguin. An easy to play touch and single switch accessible game. |
|  | Safari – iPads default internet browser. Use it to visit your favourite websites or browse the internet. |  | Lego AR Studio - play with digital versions of selected LEGO® sets in your real-world scenes! |
|  | Color Alive. Brings colouring to life. |  | Paint Space AR - Paint Space lets you draw in the air with all sorts of brushes and colors. |
|  | YouTube Kids. Safer and simpler version of YouTube for kids to explore the world through online video |  | Magic Carpet – if you have a magic carpet this app will allow you to control and operate it. |

For more information on individual apps or on the iPad itself, check the getting started guides in the red folder, look at our resources online at www.lifelites.org/hospicestaff/learningresources or use the Blipper app on the iPad poster.

iPads -Setting up Guided Access

Guided access allows you to focus and direct a user to play in a specific app or activity on the iPad.

Once set up and turned on the user cannot exit the app.

You can also choose parts of this screen to make unavailable to a user cannot click on adverbs, change settings or exit the application.

Set up guided access:

1. Click on the settings
2. Go to "General" and then click on "Accessibility"
3. Scroll down the page to the section called "Restrictions" and click on "Guided Access"
4. Turn on "Guided Access"
5. Tap on "Turn On Guided Access"
6. Tap on "Turn On Guided Access"
7. Tap on "Turn On Guided Access"
8. Tap on "Turn On Guided Access"
9. Tap on "Turn On Guided Access"
10. Tap on "Turn On Guided Access"
11. Tap on "Turn On Guided Access"
12. Tap on "Turn On Guided Access"
13. Tap on "Turn On Guided Access"
14. Tap on "Turn On Guided Access"
15. Tap on "Turn On Guided Access"
16. Tap on "Turn On Guided Access"
17. Tap on "Turn On Guided Access"
18. Tap on "Turn On Guided Access"
19. Tap on "Turn On Guided Access"
20. Tap on "Turn On Guided Access"

What if the iPad has been left in guided access and you don't know the passcode?

1. Hold down the home button until the Apple logo appears on the screen of the iPad.
2. Tap the home button.
3. Go back to the settings app and tap on "Guided Access" and turn it off.
4. Tap on "Turn On Guided Access"

Getting Started Guide

Step by Step

1. The first step is to click the home button on the top left hand corner of the device. Click the icon to place or make the iPad. To turn the device off completely hold this button down and then slide the screen on and then hold the device until the power symbol appears on the screen.
2. To return to the home screen from any application click on the home button on the bottom of the device below the screen.

Overview

- iPads have a whole range of built in accessibility features such as VoiceOver on screen reader, Siri (voice command option) and distraction features, guided screen options and assistive touch and switch control features.

Where to find more information

For further information on the iPad including how to use the assistive features go to www.apple.com/uk/learn/accessibility
