

Getting Started Guide

PS 4 – Virtual Reality

Overview

- PlayStation VR is the latest member of the PS4 family – connect the headset, add a PlayStation Camera and leave reality behind.
- Whichever way you turn, the 360 degree immersion of PS VR makes you part of a living, breathing world with a seamless field of view.

Step by Step

Start Up

1. **Turn on the PS4** – Press the power button under the SONY label 
2. **Turn on the projector or screen** (see PS4 get started guide for projector instructions)
3. **Turn on the controller** by pressing the PS button on the controller.
4. **Turn on VR** - Press the power button on bottom of the headset (C). Headphones are plugged in at (A). The volume can be altered using the controls

on the headset (G,H,I) or the inline volume control which also enables control of vibration settings

5. Hold the headset by the headband (A), not the scope (the bit with the blue lights), press the headband release button (E) and pull the front section forward. Place the headset on your head and release the headband release button (E).

Tighten the headband using the adjustment dial (D) just enough to stop movement

Adjust the scope position by carefully holding it around the edges and wiggling it until it's comfortable and the image is as clear as possible.

6. Go into the game you wish to play and follow the screen instructions, adjusting the position and angle of the camera as required so you are in the centre.
7. To remove the headset, press the headband release button (E) and re-extend the head band (A). Lift the headset by the head band.
8. **Turning off the system** – Press the PS button on the controller, go up to the toolbar at the top and across to the power button, select turn off PS4

If necessary the parent/carer could set the VR unit up on themselves before putting them on the player.

BATTERIES REQUIRED – Controllers DO NOT require batteries. Connect them to the usb port on the console with the connector
