

PS4 VR Games

Please note the Lifelites safety guidance before using VR

VR Karts

This is a Virtual Reality racing experience! Get in the drivers' seat and race in your own customized kart.

Race through stunning tracks, collect power ups and use weapons to gain the upper hand over other racers.

You can view everything the player can see through the headset on your projector/TV screen. Therefore it makes it ideal for a carer to help drive the car if required but also for others to watch the experience without actually playing.

The Playroom VR

THE PLAYROOM VR includes six games which has you diving into everything from a hilarious cat and mouse chase to clearing a haunted house of its ghostly ghosts.

Whether you're working co-operatively or competitively, the adorable interactive VR Bots are on hand to make sure you have a blast.

You can view everything the player can see through the headset on your projector/TV screen. Therefore it makes it ideal for a carer to help if required but also so others can watch the experience without actually playing. For some of the games you work competitively with one user having control of a character via the VR and the other via the controller.

Perfect

Perfect is virtual reality escapism at its purest. Breath-taking sights and simple controls make Perfect an ideal way to slip away to beautiful and relaxing locations. From sun-drenched beaches and peaceful mountains to the spectacular northern lights.

Choose different times of day and viewing points to find that perfect place for you.

You can view everything the player can see through the headset on your projector/TV screen. Therefore it makes it ideal for the user to control themselves or a carer to help. For some of the games some objects are interactive, being highlighted when looking at them, by using the controller (R2) you can pick up objects, throw snowballs etc. although throwing requires head movement.

Anywhere VR

AnywhereVR projects a beautiful 360 degree VR visual landscape.

Float amongst the clouds, watch a magnificent fireworks display in the night sky, sit in a vast sugar cane field and many more scenes.

You can view everything the player can see through the headset on your projector/TV screen. Therefore it makes it ideal for a carer to help if required but also so others can watch the experience without actually playing.

Pressing R1/L1 enables you to travel between the destinations

Eagle Flight

Eagle Flight sends you to the skies of one of the most visited cities to experience the freedom of flying and heart-pounding aerial dogfights like never before!

Free flight or in story mode. You can fly around the beautiful cities as a graceful eagle.

You can view everything the player can see through the headset on your projector/TV screen. Therefore it makes it ideal for a carer to help if required but also so others can watch the experience without actually playing.

Tilting your head allows you to turn while flying, the sensitivity of the tilt can be altered in the options menu of the game. Pressing R2 speeds up your flight and L2 slows you down.

VR Worlds (18+)

VR Worlds includes five games: The London Heist, Danger Ball, VR Luge, Scavengers Odyssey and Ocean Descent.

Go nose to nose with a great white shark, crawl through decaying space hulks, weave between oncoming traffic, survive a futuristic sport or take part in a gritty London gangster thriller.

You can view everything the player can see through the headset on your projector/TV screen. Therefore it makes it ideal for a carer to help if required but also so others can watch the experience without actually playing.
