1. SAFETY

READ THIS NOTICE BEFORE ANYONE USES PODS

1. Not suitable for children under 36 months.
2. To be used under the direct supervision of an adult.
3. Only a responsible adult is permitted to:
 1. Inflate PODS
 2. Deflate PODS
 3. Pack Away PODS
 4. Adjust the lighting via the remote.
 5. Install the batteries into the lighting remote controller (AAA Batteries supplied in UK only)

4. Always turn off PODS when not in use to save electricity and our environment. Ensure nothing is left inside that could be harmed or damaged or that may damage PODS.

Never allow children to come in direct contact with the fan when plugged in and when separated from the structure.

FLASHING LIGHT WARNING

There are several lighting modes for PODS, including a flashing light mode. This mode can be simply changed to a smooth flowing sequence or static colour by using the remote control.

PODS can be used without the lights, by either pressing the power off button on the remote or by simply not plugging in the lights.

We recommend that parents observe their children while they use PODS.

All of our products are CE mark approved by a 3rd party.

Testing laboratory: Shenzhen BCTC Technology Co Ltd

A. Floor3, 44 Building, Tanglang Industrial Park B, Taoyuan Street, Nanshan district, Shenzhen, China

PODS is not a toy:

Test reports EN14960:2014 Report No: BCTC- 141111768 Inflatable Play Equipment

RoHS Directive 2011/65/EU IEC62321-1:2013 Report No: BCTC- 141111769

All of our products are CE mark approved by a 3rd party.

2. CONTENTS

- 1 x PODS structure
- 1 x Interior themed graphic
- 1 x Exterior themed graphic
- 1 x Removable themed door
- 1 x 24v Fan

Interior play area • 1.3m diameter

Usable floor space • 1.33 square metres

Height to top off inner POD • 1.55m

Total package weight • 10kg

Material used: Rip-Stop Nylon, Flame Retardant

Requires 1 x 13 amp plug sockets or extension lead

24v DC 50-60Hz 95W

4. INSTRUCTIONS

READ THIS NOTICE BEFORE ANYONE USES PODS

How to setup PODS

1. Make sure you have a 2 x 2m clean and clear floor space.
2. Unpack PODs from its backpack.
3. Place PODs on the floor
4. Place the jack plug attached to the power supply to the fan, use the screw lock on the jack plug end to fasten the connection. Plug the power supply into the mains and use the power switch to turn on the power.
5. Inflate the PODS on full by turning dial clockwise to max. When inflated, reduce down to a level whereby the POD is stable and secure and the sound has reduced.

To adjust the lighting;

1. The Remote control can be found on the inside velcro pocket of the PODS backpack.
2. Make sure the remote is fitted with 2 x AAA batteries. Once the product is plugged in the remote will control the colour of the light, colour changing series, brightness and can turn the lights off.
 - 2.1. Colours can be selected by touching the colour wheel on the remote.
 - 2.2. To adjust the colour changing mode press either "M" button to cycle between selections. The top "M" button will cycle up and the bottom will cycle down.
 - 2.3. To adjust the speed of the colour changing settings select either "S" button. The top "S" button will speed up the colour transition speeds and the bottom will slow down the colour transition speeds
 - 2.4. To adjust the brightness of the colour changing settings select either "B" button. The top "B" button will increase the brightness and the bottom will decrease the brightness.
 - 2.5. To turn off the lights Press the (-) button on the top of the remote control.
 - 2.6. To turn on the lights Press the (O) button on the top of the remote control.
 - 2.7. PODs can be used without the lights. Simply omit the black lighting controller when setting up PODS.

How to remove the graphics

1. To remove the exterior graphics simply unzip the printed graphic banners starting from the rear of the POD.
2. To remove the interior graphics simply unzip the printed graphic banners starting from above the door on the inside of the POD.

How to apply the graphics

The interior theme is best applied when the POD is inflated.

1. Simply find the top zip starter at the top of the zip inside the POD.
2. Then find the zip puller and end of the theme and zip up around the 360 degrees of the POD inside.
3. Follow then with the bottom zip at the bottom of the theme, again inside the POD. This zip will go around the door aperture so takes a fraction more time.

The exterior graphic is best applied when the POD is deflated.

1. Simply find the top zip starter at the top of the zip on the POD exterior.
2. Then find the zip puller and end of the theme and zip up around the 360 degrees of the POD exterior.
3. Follow then with the bottom zip at the bottom of the theme, again on the POD exterior. This zip will go around the door aperture so takes a fraction more time.

How to apply the additional floor pad (optional extra)

1. Zip in the floor pad into the base zip found on the interior of the POD at floor level.

5. WEE DIRECTIVE Disposal of Electrical Goods

If ever disposing of electrical goods, please take note that electrical items must not be placed in the general household waste.

Please consult your local authority to confirm the correct way to dispose of electrical goods.
